Note

- In this short journey we will learn in form of group (jamaa') which is the need of today. It helps us improving our levels of **patience, helping others, discipline** and **motivates** us to look for **more knowledge** and **spare time** for sake Allah and Him alone.
- Some of the participants will leave the groups for their own reasons, I hope and pray that they spent their time for something better than being here, to please Allah more.
- Everyone will be sharing task completions which will be annoying for us but we have to leave of our **comfort zones** and put our efforts to move hand-in-hand together for a greater benefit.
